

Datasheet P404 Manual plastic strapping tools

Manual plastic strapping tools

Characteristics

Strapping qualities:	Polypropylene (PP) and Polyester (PET)
Strapping dimensions: widths thicknesses	15.0 – 16.0 mm / ⁵ / _{8"} 0.50 – 0.90 mm / .020035"
Weights:	3.8 kg / 8.4 lbs without suspension 3.9 kg / 8.6 lbs with suspension
Average seal strength:	approx. 70 %
Type of joint:	Joint with special seals
Suspension (Optional):	bolt and grip ball for horizontal applications; have to be ordered separately

Advantages

- Handy light weight tensioning and sealing tool to strap flat packages (i.e. pallets, bales, crates, cases, various packages) using plastic strapping
- A reliable, robust and service friendly tool
- The windless tensioning system allows very high strap tension
- Special serrated seals and the patented sealing force balance system guarantee a very high seal joint efficiency
- The sealing handle is always operated until it hits the stop thus the seal efficiency of all joints is high and balanced
